

ST. LEONARD CHURCH BULLETIN
MARCH 28, 1954-LAETARE SUNDAY
VOL. I-NO. I

If you have a flare for collectors' items you might file this bulletin, keep it for the proper length of time, and then try to remember where you put it so that your grandchildren might be awed if you find it. The bulletin you are now reading is a first. And since the parish of today is not complete without its weekly bulletins (and envelopes) it seems rather certain that this issue will head a long list of kindred copies. It also means that a mimeograph has finally been obtained, thanks to the Men's Club, and that Saturday will no longer be Saturday until the weekly bulletin has been written, typed, printed, and eventually placed into the hands of the ushers. The ushers, by the way, who espouse the idea of quiet and ecclesiastical deportment in the House of God, will not allow you to be tempted during Mass because of the weekly bulletin. You will never be guilty of confessing: "I was distracted during Mass by reading the bulletin that the ushers gave me before Mass." This pertinent piece of Sunday literature will always be handed to you by the ushers as you leave church.

Friday, March 2nd, is the First Friday of the month. Try to receive Holy Communion on that day in honor of the Sacred Heart.

Last Sunday, March 21st, the parishioners of St. Leonard gave \$149.17 towards the building of their parish on Zorn Ave.

Next Sunday, April 4th, is the First Sunday of the month; which means it is Building Fund Sunday in our parish.

The only extraordinary fund-raising-method we shall employ at present is the special collection on the first Sunday of each month. Our aim is to double the collection on the first Sunday of each month.

The architect during the past week has conducted a boring survey on the Zorn Ave. church site. We have reason to be happy with the findings thus far, because in most places where he placed his drill he drilled 13 feet into the earth before striking rock. The object of such tests is this: The location of the buildings will be greatly determined by the rock strata under the terrain. Some buildings will need a basement, others will not. And we are not interested in spending money for blasting through rock unless it is necessary.

Tickets to the Card Party on April 22nd, to be given for St. Leonard, can be obtained before and after Mass. Cards on the capital prize can also be obtained before and after Mass.
